Experience

❖ HyperThink Systems Software Engineer

Bangalore, India
(Jan 2022 – Present)

- Developed frontend web applications with a focus on responsive design and user experience.
- Designed user interfaces and integrated them with backend APIs. Managed code merging and oversaw deployment processes.
- Presented demos to clients, gathered feedback, and actively participated in project discussions.
- Stepped in as Frontend Team Lead during the absence of the Team Lead, guiding the team to ensure project success

❖ Rejolut Technology Pvt Ltd. Frontend Developer

Mumbai, India
(Aug 2021 - Dec 2022)

- Developed frontend web applications with a focus on responsive design and user experience.
- Designed user interfaces and integrated them with backend APIs. Managed code merging and deployment processes.
- Presented demos to clients, gathered feedback, and refined project deliverables.

Projects

❖ Arisio Next.js, MUI, REST API Integration, Redux & Hooks.

- **Designed and Developed a Web Application for Qatar Ministry:** Created a platform enabling startups to register, view mandates launched on the portal, and apply for funding, while facilitating investors to sign up and provide funding to eligible startups.
- **Enhanced Security:** Integrated **reCAPTCHA** to safeguard the application from spam and abuse, ensuring a secure user experience.
- **Optimized User Experience:** Leveraged **Hotjar** to monitor user activity, identifying areas for improvement and enhancing app usability.

❖ Ticket Monitoring Next.js, MUI, REST API Integration, Redux & Hooks.

- **Developed a Ticket Tracking System:** Designed and implemented a system to log issues reported by customers and testing teams, streamlining issue resolution.
- **Core Features:** Included ticket assignment, resolution tracking, and automated email notifications to ensure timely updates and efficient communication.
- **Impact:** Enhanced response times by allowing customers to create tickets directly, which were auto-assigned to the appropriate management level for quick action, reducing delays and improving customer satisfaction.
